

Collaborative Innovation Center of Assessment for Basic
Education Quality

Talent Recruitment Program on 2019

中国基础教育质量监测协同创新中心
Collaborative Innovation Center of Assessment for
Basic Education Quality

The Collaborative Innovation Center of Assessment for Basic Education Quality in Beijing Normal University (CICA-BEQ) is the first and currently the only national collaborative innovation center in the field of education assessment and psychometrics authorized by the Ministry of Education of China.

Our Mission and Value

1. Our aim is to improve the basic education quality in China, to continuously enhance student achievement and global competence, and to promote education equity and equality.
2. At this research center, more than 200 scholars and students work together to build a scientific and national monitoring system for basic education quality in China, to provide accurate data for education policy-making and management.

Our Goals

1. To become a world leading research center of basic education quality with world renowned experts and cutting-edge researchers, and to foster future researchers in the field.
2. To build up a comprehensive national education quality monitoring system in support of educational policy-making, and a credible platform for the transparency and openness of education quality information
