

**Technion – Israel Institute of Technology in Haifa**

The Department of Humanities & Arts  
and the Faculty of Education in Science & Technology

invite papers to a conference  
to be held in English and Hebrew

on the subject

**Soft Skills in STEAM (Science, Technology, Engineering,  
Arts & Mathematics) Education**

The conference will take place on Thursday, May 14, 2020

09:30 – 16:30

in the Humanities & Arts Building, Technion City, Haifa

Soft skills are a collection of interpersonal qualities that permit the individual to function well in society and achieve his/her goals. These skills include, inter alia, effective communication and efficient teamwork. Soft skills play a major role in education, and their importance is expected to increase within the Industry 4.0 framework. The conference will explore how STEAM (Science, Technology, Engineering, Arts & Mathematics) curricula can develop soft skills.

We would like to encourage contributions from scholars and teachers from different disciplines and fields of practice.

Please send your abstract (max. 300 words) and a short biography (50 words) by February 20, 2020
